AMERICAN COMMERCE.

Resolutions of a Meeting in Chicago for Promoting It.

By Telegraph to the News.

CHICAGO, Oct. 17.—A meeting of manufacturers, merchants and citizens was held at the Grand Pacific Hotel last evening to listen to an address by Cyrus Bussey, President of the New Orleans Chamber of Commerce, upon the subject of promoting American Commerce. Judge Booth, Hon. John C. Dore and Hon. Cas. L. Easton also made some remarks. Resolutions were adopted favoring such transcontinental cheap rates of railway transportation as will develop our trade with China, India, Japan and Australia. Such cheap rates can only be obtained by breaking down the present railway monopolies to the Pacific coast, and the completion of the Northern and Texas Pacific roads. The resolutions further recommend speedy action by Congress looking to that end, and provide for a committee of seven to give force to these purposes, and favor the holding of an International Commercial Convention here, soon, to consider the extension of our North and South American trade, and in favor of the extension of steamship lines with foreign countries by means of subsidies and mail contracts, and called for general exertion of water traffic by Congressional legislation.

A Card from Tilden.

By Telegraph to the News.

NEW YORK, Oct. 17.—Samuel J. Tilden publishes a card in which in referring to the recent official telegram publications, says he has no knowledge of the existence of these telegrams nor any information about them, except what has been derived from their publication. Referring to the alleged attempts to negotiate for electoral votes in Florida and South Carolina, he denies all knowledge of the existence or purport of any telegram relating to the subject. He says: "I have no action on my part leading to a bargain of any kind would have been inconsistent with his plans; the fact that he had in view the system of reform which he could not have carried out unless he was untrammelled by any commitment in the choice of men to execute the official trusts of the Government, and therefore free from any obligations to special interests. 'I was resolved to go into the Presidential chair.' He says: 'In full command of my resources or not at all.'"

WASHINGTON.

By Telegraph to the News.

WASHINGTON, Oct. 17.—An order has been issued from the Treasury providing for the establishing of a mode for purchasing silver bullion hereafter. It is found by experience that London quotations are not a safe guide. The transactions there are less in amount than in New York; the quotations are frequently influenced by the speculative movements and not by the genuine sales. The new mode requires bids on Wednesday of each week for delivery at Philadelphia or San Francisco, to be delivered as proposed by the bid. The

THE STATE FAIR.

Grand Galleries—Ten Thousand People on the Grounds.

By Telegraph to the News.

Yesterday was an eventful day in the history of the North Carolina Society. By eleven A. M., the special trains from Weldon, Goldsboro, Fayetteville and Charlotte had arrived bringing not less than three thousand people, while the roads leading to the grounds were crowded with every conceivable vehicle filled with men, women and children—all going to the Fair. The weather was all that could be desired, a bright unclouded sun shone in splendor upon the most immense gathering of people ever known in our good old State. At 2 p. m. the vast multitude was estimated at ten thousand. Every section of North Carolina was represented, and by all classes of citizens. We observed visitors from adjoining States, especially Virginia and South Carolina. Everybody was in a fine humor. The farmer with his wife and children, the mechanic, merchant and artisan, having taken this occasion to visit our beautiful Capital and see the Fair. These annual reunions are always pleasant. The Hon. Allen G. Thurman, of Ohio, was not present, illness having prevented his attendance. The result of the late election in that State may have added to his sudden indisposition. Presidential aspirations and defeat generally make folks sick. But the people were not disappointed. Visitors of Indiana, was invited and accepted the invitation, to be present at the great Fair of 1873, but he didn't come, and the visitors were disappointed as usual we have home people that should be heard by the Society, yesterday the Hon. M. Robinson, M. C. from the 7th district, filled Thurman's place, and right well did he perform the duty assigned him. At 1 p. m. he addressed the vast multitude. His address was one of the ablest we ever heard of. He said that the horses had run were quite as well pleased that Thurman had spoken. Following the address came the regular programme of the day.

A Texas Romance.

By Cable to the News.

A beautiful girl has been discovered in Waco, Texas, dressed in male attire. After her arrest she confessed to her sex and told a strange history. According to her story, she is a girl 16 years of age, belonging to a wealthy and prominent family in the State of Missouri, but whose name she would not reveal. She had been courted by her brother-in-law who objected to the marriage and even threatened her life if she married her lover.

She came to Texas one year ago and in March last married the object of her affection. Some weeks ago, hearing that her relatives were on her track, she was obliged to admit this disguise to escape danger from them and save herself and her husband from their wrath, knowing that no man has ever been punished for killing a woman in Texas. The fair girl has the bashfulness of girlhood, but seems perfectly at home in breeches. It is believed that there is more of romance and mystery about the case than the girl has yet seen fit to reveal.

A most singular case of suicide has developed in Cincinnati. A few days ago a seven year old son of Mr. Koytzer, a druggist in that city, asked his mother for a piece of bread and butter. She gave him the bread but refused the butter. This angered the lad. He told his little sister good bye and that she would not see him again. He has not been seen since, but on the 20th of September his clothing was found on the bank of the Ohio river, and there is every reason to believe that the little fellow threw himself into the river.

Lively Times at Newbern Between the two Republican Factions.

By Telegraph to the News.

NEWBERN, Oct. 16th, 1878. The action of what is called by the O'Hara faction of the Republican party in this city, the Boous Convention at Kingston yesterday, has caused no little excitement in our city to-day, which seem to increase up to the time of the meeting, at 10 o'clock p. m. Jim Harris who was nominated by the anti-O'Hara men at Kingston yesterday, is here to-night, speaking at the court-house, while the O'Hara faction is holding a meeting at the City Hotel. The O'Hara men then placed their sentinels on the different corners all through the city to persuade and, if possible, to turn all who were going to the Harris meeting to go to the O'Hara meeting, and by this means, although the Harris faction had a band of music, the O'Hara crowd was decidedly the largest and more enthusiastic, and from present appearances the O'Hara faction seem to have decided advantage. It is feared by some of our citizens that whichever meeting breaks up first will make a raid on the other and result in a big row.

Harris seems to be piling it on O'Hara very strong, and the O'Hara speakers are about as sour on Harris, and claim that he (Harris), sold out to the Democrats in 1868, and it is charged that Morris, the National candidate, sold out to Harris for one hundred dollars at the Kingston Convention on yesterday, and the heretofore National element of former Republicans, will vote for O'Hara, and some of them intend now to vote for O'Hara.

The display by the Bingham cadets was really one of the features of the exhibition yesterday. J. M. Perry and D. R. Lindly, of Chatham, exhibits a fine display of fruits, wines and liquors. Mr. Perry's peach brandy is equal to any ever made in the South.

Dr. G. K. Foster, of Alamance and Nat. Atkinson, of Uncomb, who has taken more premiums, State and National, than any pomologist in America deserve especial mention. Prof. C. B. Fairchild deserve commendation for his magnificent display

of flowers which is so ornamental to Floral Hall. The Berne Silver Cornet Band furnishes the music at the exhibition, and just here we must thank this excellent band for a serenade last night. This band is very justly regarded as one of the best in North Carolina. Go to the Fair to-day. The Fire Companies of the city will make a fine display to-day.

Meeting of the State Agricultural Society.

The Society called to order in Common Hall at 7 1/2 o'clock last night. President Holt in the chair. Capt. C. B. Denon, Secretary, read proceedings of the last meeting, which were approved. President Holt vacated the chair and called Gen. W. P. Roberts, of Gates Vice-President, to preside.

The consideration of Capt. Thigpen's resolution to hold the next Annual Fair at Charlotte was discussed at length, and after it was postponed until the next annual meeting of the Society. Capt. Denon stated that all parties, to whom premiums have been awarded, are requested to remain until Saturday, when all premiums will be paid or delivered, except a small sum of money, and these will be sent immediately after the Fair.

On motion of R. H. Battle the delivery of the address by Dr. Craven and Prof. Bishop, was postponed until to-night. The following officers were unanimously elected by acclamation, the by-laws requiring election by ballot having been suspended:

President, Col. T. M. Holt, Vice Presidents, Col. J. B. Alexander, Mecklenburg; B. M. Collins, Warren; Gen. W. P. Roberts, Gates; W. G. Upchurch, Wake; Geo. Allen, Craven; J. B. SWAIN COUNTY.

A Broad Gauge Rail Road Needed—Where North Carolina Stock is Driven.

By Telegraph to the News.

CHARLOTTE, Oct. 13.—Judge Avery has been holding our courts in the extreme west, and is giving satisfaction to all. He suits our people and the times. While firm and decided in his demeanor, he is not at all tyrannical or overbearing, or in any way disposed to "show his authority" audibly. It does commend people good for a Judge to attend and relax himself when he gets off the bench and to smoke his pipe with the old women in the corner of the fire place. The Judge got through court here "decently and in order."

A FINE SECTION.

This is one of the smallest counties in the State and as brave, patriotic as any that boasts of greater numbers and wealth. Named for one of our worthiest and most illustrious Governors. He is yet destined to be famed for the integrity and patriotism of her sons—the beauty and fertility of her hills, valleys and mountains, and the health giving qualities of air and water. A few miles from here and immediately upon the line of our great Western Rail Road is one of the finest mineral springs in all this mountain section. Numbers of persons have recently gone there and greatly benefited. This whole mountain region will one of these days be far more valuable in every respect than the far famed Virginia springs section—with all its air, water, grass and cattle notoriety.

Within a few days past, 5 or 600 head of cattle have been driven from this locality to Virginia—all fat and beautiful cattle. Virginia will get credit for them and Virginia will owe them as only "unfortunate Virginians" can do. Every year thousands of our best cattle, hogs, horses and sheep, are thus quietly appropriated by them.

RAIL ROAD WANTED.

If we had a rail road we would send this mountain beef—the best in the world to you of the middle and eastern part of North Carolina. I have heard of recent mutterings along the line—about the great cost, etc. of such a road. Kind friends? Kind friends? I have suggested a narrow gauge as our only hope—because the only thing possible. Is it possible that while for the last 25 years the wise men of the east—the middle and west have been devising all sorts of plans for our relief—that we are at last to be told that a wide gauge road is impracticable? Why all this work in grading etc., already finished—up to this county—70 miles west of Asheville? No, no, my dear sirs! I narrow gauge will suit us. Other markets and other States will get our produce, and in all kinds of cases, other statesmen will get our votes if this dire calamity befall us. I declare to you and I defy successful contradiction—that the rail road can be built from Asheville westward cheaper than from thence eastward—counting the whole distance. It is lighter work every mile than down from Broad, and after crossing into Jackson county down to Scots Creek the road runs along down beautiful river and creek valleys, surpassed by no part of North Carolina east of Raleigh for rail road purposes, excepting perhaps 8 or 10 miles in different sections, as the small tunnel at mouth of Scots creek, 2 miles across Cowee mountain the head of Nantahala river and at the end of the whole line near Ducktown, Tenn. Now my dear sirs, our people have long and earnestly hoped for this road and we are proud of our "old North State" and we do hope that nothing will be done to mortify us, or dampen our affection for the State. Now, my dear sirs, our people have long and earnestly hoped for this road and we are proud of our "old North State" and we do hope that nothing will be done to mortify us, or dampen our affection for the State. Let this feeling rather increase than subside. "SELEETA."

CIRCULAR SAW MILL. LEVER FEED CUTTER

Hedge's Improved Circular Saw Mill, is no new & untried saw mill, but is one that is
well and favorably known in many sections, and wherever it is introduced it is fast
succeeding all others. It is simple in construction, yet reliable in operation, and is sold for
less than any other first class saw mill. Send for descriptive circular.

Something entirely new and novel in the feed cutter line. With this cutter the feed
time of our cutter has a draw cut, acting exactly on the same principle that a knife is used in
cutting off a stick, consequently with our Diagonal Feed Cutter we can cut more feed with
less labor in a given time than any other cutter costing twice as much.
Price reduced to \$8.00. Send for circular. Liberal discount to agents. No goods
signed. Manufactured by the Salem Agricultural Works, Salem, N. C.
